

REFLECTA™ - MET-A730

REFLECTA™- RFID UHF Metal Tag

MODEL	MET-A730
Operating Frequency	(EU)866-868MHz (GLOBAL)
Operating Mode	Passive
Read Range	Up to 8.5m
Dimension	100*27*9mm
Material	ABS
IP rating	IP67
Operating Temp.	-10°C to +65°C
Storage Temp.	-10°C to +55°C
Protocol	ISO/IEC 18000-6C
Memory	EPC 128 bits TID 48 bit unique User memory 0 bit
Colors	Black
Optional	Serial Number Label
Applications	Asset Tracking - Metal / Non-Metal Adhesive (Gel Tape, Foam Tape)
Affixing Provision	Riveting / screws (2 holes available)

The REFLECTA™ - MET-A730 is a rugged, passive UHF RFID tag optimised for asset tracking on both metal and non-metal surfaces. Operating at (India / EU) 866–868 MHz, it delivers reliable reads up to 8.5 meters and complies with ISO/IEC 18000-6C standards. Built with durable ABS material and rated IP67, it withstands harsh environments. Its compact 100×27×9mm design supports multiple mounting options including adhesive and screws. Ideal for industrial applications, it features a 128-bit EPC and a unique 48-bit TID, ensuring accurate identification and traceability.
